

Instructions on Saliva PCR test for Oversea Travelers

This test is a saliva-based Novel Coronavirus (SARS-CoV-2) PCR test. It is for the people without any symptoms who will be asked to present negative certificates in order to travel overseas. (This test is not covered by public health insurance.)

【Testing Steps】

- After confirming your identification, please collect about 1-2ml of your saliva into a sterilized testing container that you can get at a designated place of the testing center. Be sure not to spit saliva outside the container. Then, close the lid over the container.
- Place the container in the designated place after collecting your sample. Use provided hand sanitizer to disinfect your hands after finishing the test, then leave the testing center.
- Please refrain from staying overnight at the airport to wait until your test result comes out. Stay at your home, a hotel, or accommodations and visit again on the day that the negative certificate will be issued.

【Issuing of the Negative Certificate】

- The negative **certificate will start to be issued from 2 - 4 hours after the test, between 9:00am and 12:00pm, or 1:00pm and 10:00 pm.** In rare cases, the test may lead to an inconclusive result. We will immediately give you a phone call if applicable.
- Immigration requirements may change suddenly based on the country's policy. Regarding the judgement on immigration and movement restrictions after arrival at your destination, the policy of the destination country should be given priority. The negative certificate issued by this PCR test is not necessarily exempt you from such restrictions.

【If you tested positive】

- In case you tested positive, we make a phone call to you immediately at the time the test result came out. We also contact the public health center.
If you schedule to board the flight on the day you tested positive, we will contact the airline company in order to avoid troubles such as delay of the flight, etc. Nevertheless, please be sure to contact the airline company by yourself and cancel your flight, regardless of our contact with them.
- In such cases, you have to stay where you are and follow the orders from the competent public health center.

【Disclaimer】

- Even if you do not request the "positive" certificate, test fees are not refundable.
- Regarding the time required to get the test result, it is just a rough estimate. Therefore, we are not able to guarantee your boarding on the flight which you scheduled.
